Qiskit | Quantum Explorers

A self-paced, game-based quantum learning journey.

Complete quantum computing learning tasks to unlock space exploration themed achievements.

Highlights

- Curated beginner to intermediate syllabi to gain a foundational understanding of quantum computing and some of its applications

  (Quantum Computing and Qiskit 101, Quantum Machine Learning, Quantum Optimization, and more!)

- Learners interact and network in a dedicated space through community activities and discussions

- Learners choose their own pace and craft their own learning paths

- Approximately 50 to 85 hours spanned over 7 months

- Culminates in a certification

July 2023 - Feb 2024 | High school+ friendly | Virtual

Open globally | Non-technical friendly
